

# Assembly Instructions:

- \* Print PDF with Page Scaling set to "Fit to Printable Area."
- \* Cut out the two pieces along the bold lines.
- \* Cut out the grey Total Hours window on the large piece.
- (at this point you may want to laminate the pieces for durability)*
- \* Using a sharp pencil or knife, carefully punch center and hanger holes.
- (score the hole outline first to get a clean punch)*
- \* Use a brass fastener to attach the smaller wheel to the larger wheel through the center holes.

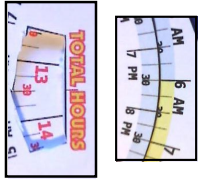

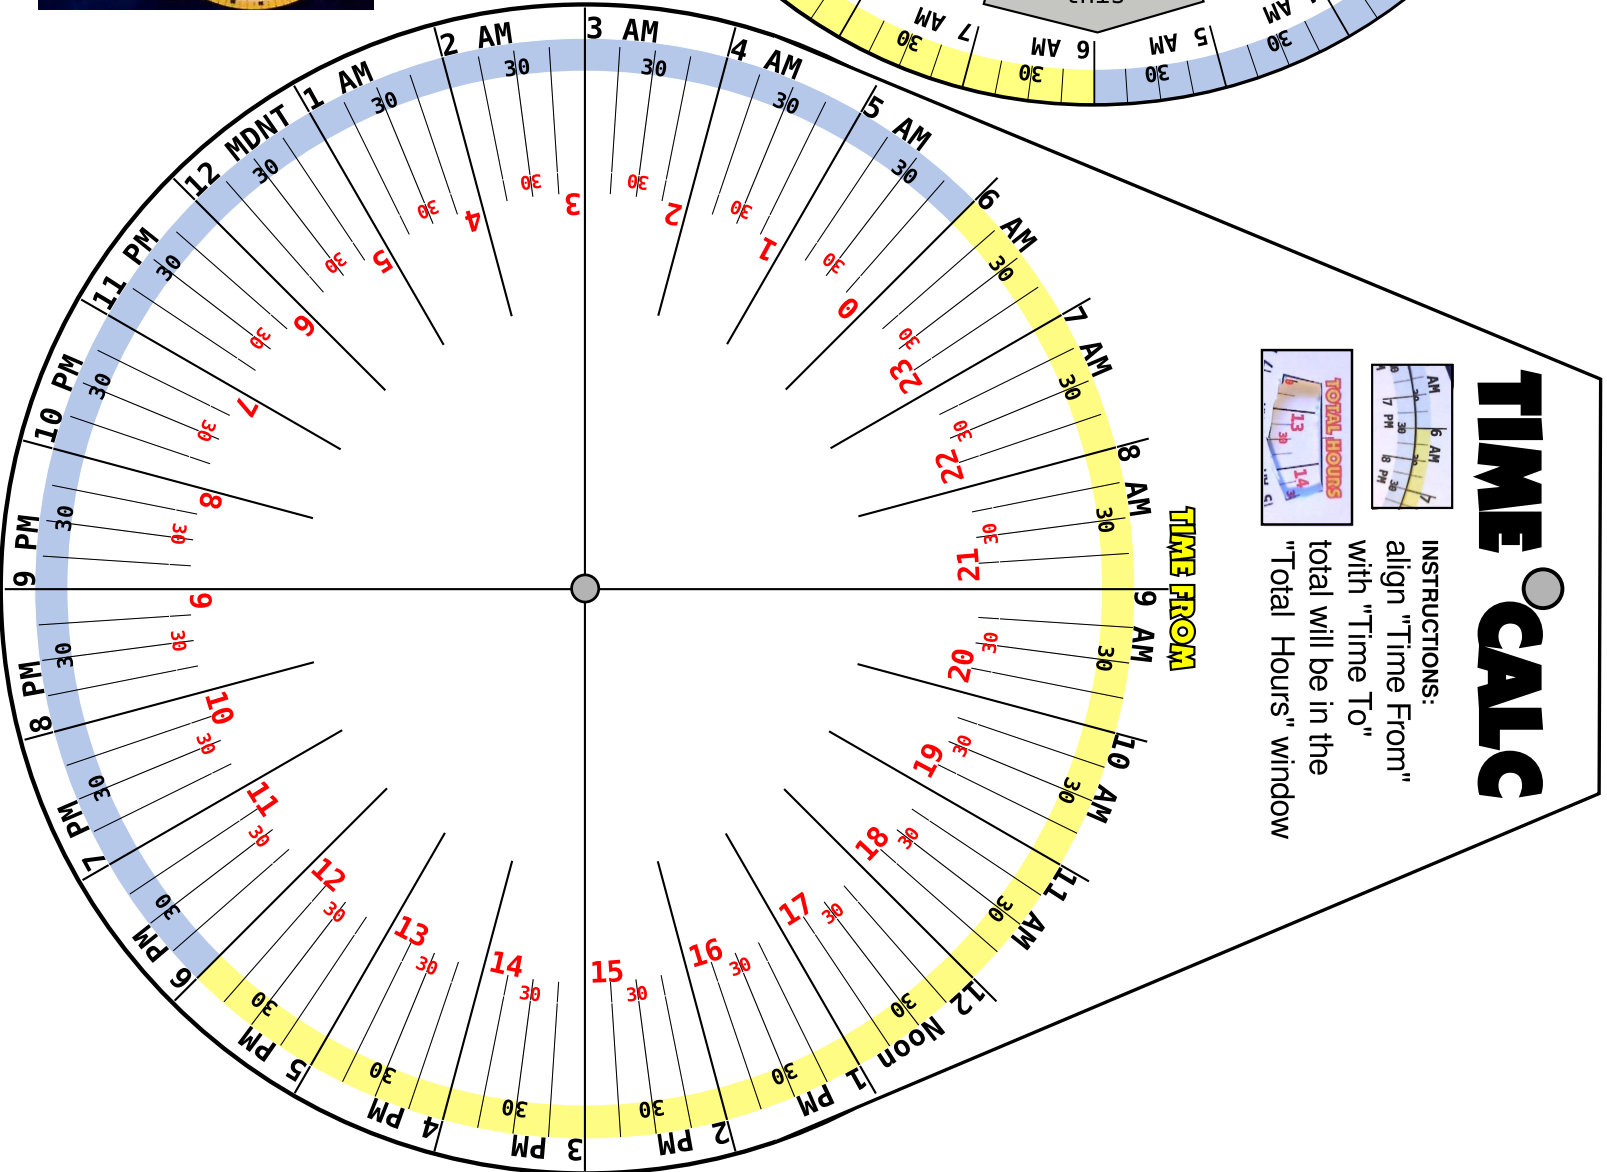

## Time Calculator

This time calculator is an item your customers will keep and use again and again, cheap to reproduce and plenty of space for advertising!
